Departments/Offices Affected by the Policy

This policy affects all of the departments and offices of the College of Charleston.

Policy

A. General Requirements

1. Timeliness of Payments

The College has established general invoice processing timeframes – five to seven days – appropriate (e.g. for credit ratings, customer demands, etc.) to its environment and more expeditious than the State mandates provided all required documentation accompanies the invoice, and the goods or services have been received in the eProcure system. However, for interest and penalty purposes, State law allows for the payment of all invoices for goods and services within 30 workdays from the satisfactory receipt of the goods and/or services or a valid invoice, whichever is later. Interest not to exceed the annual rate allowed by the State will be levied against the College for the unpaid balance beginning on the thirty-first (31st) workday. This rule does not apply to reimbursements to State employees and payments to State agencies.

2. Types of Payments

The Accounts Payable area of the Controller’s Office primarily processes four types of orders for payment: purchase order; expense authorization; travel authorization and intradepartmental transfer (IDT’s). In addition, student refunds are processed as direct feeds from the Student Information System.

a. Purchase Orders are issued by Procurement and Supply Services and result in automatic feeds to the accounts payable system. Once an invoice is received, all items on the invoice are verified for validity against the purchase order. If differences exceed the allowable limits, a buyer approval is required from Procurement and Supply Services.

   1) Invoices with regular purchase orders:

   a) An approved Purchase Order (See the Procurement Procedures).

   b) An original, valid invoice. A valid invoice lists the vendor’s name and address as well as the date(s) of service/shipment, itemized description(s) of good/services, and amount(s).
c) A receipt in the eProcure system.

d) Vendor’s Federal Identification Number (See related policy on Tax Payer Identification Number).

2) Invoices with blanket purchase agreements/orders

These type orders require the same information as above except there may be no specified dollar limits, and they require payment authorization by the department.

b. Expense Authorizations (EA’s) request payments for purchases exempt from the State Procurement Code. They allow processing direct payments to vendors and are sent straight to Accounts Payable, as opposed to Procurement. Many direct purchases of this nature may be paid with the procurement card (Pcard). Please review Procurement and Supply Services website for additional information.

1) All direct payments are subject to Accounts Payable policies and must be submitted with proper documentation.

2) EA’s sent to Accounts Payable which do not fall clearly under these direct payment guidelines will be sent to Procurement for review by a buyer. If after review, the buyer determines the EA can be paid directly, the buyer will indicate this on the EA, initial and forward the EA to Accounts Payable for processing.

3) The following is a list of direct payment categories.

   a) Books (The transaction can also be charged on a departmental purchasing card);
       
   b) Dues and memberships;
       
   c) Petty cash establishment/replenishment;
       
   d) Employee recruitment (e.g. expenses for lodging directly billed to the College);
       
   e) Registrations for seminars, conferences, etc. Vendor registration forms must be filled out completely. A separate EA is required for each employee attending the seminar, conference, etc.;
       
   f) Honorariums, speaker/lecturer fees and other personal services – Compensation given to independent contractors who are not employees of CofC or the State.
