Policy Statement

The Vice President for Facilities Planning shall consult with the Speaker of the Faculty Senate and the President of the Student Government Association (“SGA”) whenever the College plans a major alteration to the landscape of the campus. To the extent practicable, this consultation shall take place early in the planning process and in advance of final decision-making. The Speaker, in turn, may consult further with such faculty subject matter experts as the Speaker may deem appropriate.

During the deliberative process, the Vice President shall make available to the Speaker and the SGA President final reports and analyses regarding the alteration project. The College President will be informed of all substantive issues and attending opinions prior to being requested to act on the matter.

The ultimate decision regarding a proposed major landscaping alteration shall remain with the College President.
